DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 7, 8, 14-16, and 23-24 are rejected under 35 U.S.C. 102(e) as being anticipated by Treyz et al.

Treyz et al. shows, figures 1 and 107, shopping assistance with handheld computing device (HCD) (transaction device), which may allow a user to obtain directory information for a shopping mall (locating and providing directions to store kiosk). Figure 1 shows that the HCD is "coupled" to the kiosk through the communications network at all times. Figure 107 shows an audio kiosk, which has electronic functions such as a card reader (secure link needed) or an audio database, neither of which are available on the HCD.

It should be noted that the above is just one possible interpretation of Treyz et al. to meet the limitations of the broadly recited claims.

Response to Arguments

Applicant's arguments filed 8/22/05 have been fully considered but they are not persuasive. Applicant's arguments have been addressed in the more spelled out rejection.
